

# Laguna Cliffs Marriott Resort & Spa wants to say WE care and we hope you do too...

## We've Gone Green...

- Smoke Free Resort – improves indoor air quality which results in a 30% decrease in air treatment systems
- Recycling glass, plastic and paper according to local guidelines
- E-mailing in-house reports including dailies to all departments rather than hard copies distributed
- Installed energy efficient light bulbs through the resort
- All guest room patio furniture is made from recycled milk jugs
- Installed water flow restricting devices in all guestrooms
- Housekeeping Department has initiated changing sheets and towels for longer stay guests every three days unless otherwise requested
- Upon Request we can provide an “Allergen Free Room”
- All products we use in our spa treatments are organic and/or natural
- The Spa at Laguna Cliffs underwent a Green Renovation, which included upcycling of reclaimed wood, recycled glass, and repurposing of existing elements such as cabinetry, mirrors, and lockers
- The Spa offers the option to email appointment confirmations and receipts
- The Spa uses Eminence Organic Skincare which plants a tree for every product sold. On average, guests of Laguna Cliffs plant 100 trees per month.
- Eminence Organics also ships in biodegradable and recycled packaging
- Practicing “green” cleaning standards
- Our splash zone uses a purification system
- Participate in energy star program
- Paper glass and plastic recycle program
- Cardboard recycle bailing program
- Lawn waste mulching program
- Reflective white roof on all flat areas
- Computerized hvac system in meeting, dining and public space
- Saline pools and spas to reduce chlorine gases
- Wader use’s saline water to reduce chlorine gases
- Guestroom recycles using a separation program
- Exterior lighting photo cell program

- Rain sensitive irrigation system
- Cooling tower closed loop with computerized blow down programing
- Lobby and restaurants hvac set up on 25% fresh air supply
- Guestroom & prefunction space hvac set at 35% fresh air supply
- 20,000 square feet of synthetic turf to help eliminate watering
- Led lighting in all public space
- Compact florescent lights in all guest rooms
- Garage parking structure LED lighting program
- Low flow shower heads
- Waterless hands free urinals in all public space men's restrooms
- Participate in cooking oil bio-fuel conversion program
- Computer and electronic recycling program
- Participate in Kitchen rinse and save sprayer program
- Garbage disposal free in kitchens using eco-strainer waste collectors
- Active participants in all green preventative maintenance products
- Active participant in green recycling for computer & electronic components
- Active participants in all metals waste programs
- Uniforms for Housekeeping staff are made out of recycled material (water bottles)
- Dry cleaning is done using Green Earth Chemicals which are Eco-Friendly
- Landry facility in use is the only LEED Certified laundry facility in California
- All damaged linen and Terry is recycled for other uses
- All guest room patio furniture is made out of recycled material
- Splash zone utilizes recycled chlorine-free splash pad.
- Guestroom thermostats are motion and heat detection sensor activated to provide up to 30% more energy savings per occupied room.
- The Resort replaced its exhaust units with 50 *solar* powered guest room exhaust vent riser fans.
- Hotel gas usage is computer monitored to isolate and economize use during peak and off peak hours providing another 13% use savings.
- Cooling tower has a computerized system that minimizes backwash and wash down periods instead of the standard timer systems.
- Steam generators are set to activate blow down only under strict parameters providing an 8% water savings and another 15% chemical use savings.
